Background

Third year software engineering student of the university of Buea - Cameroon. I am 20 years old.

Experience

Passionate software engineering student, with 1 year of experience while programming in Javascript. This experience includes collaborating with other developers to build beautiful user interfaces.

Soft Skills

A critical thinker, with good written and verbal communication abilities. Can evaluate problems, identify issues, and propose solutions.

- Main Language Javascript
- Tools VS Code, git.
- Database MongoDB
- Backend NodeJs
- Frontend Html, css, bootstrap, javascript

Engineering Skills

- I worked on a quiz app in which I used html, css and javascript.
- I have good knowledge of object oriented programming and can implement it.
- I have profound knowledge of html, css, javascript and bootstrap and can develop and build user interfaces.
- I am an intermediate in nodejs, expressJs and mongodb and can build backend with them.
- I have been able to work under the mentorship and guidance of senior engineers.
- I have been able to learn new technologies in a short amount of time.
- I can think innovatively and I am open to corrections.

Projects

Quiz app(Not completed) - <https://github.com/EbotProg/Quiz-App/tree/main/Quiz%20app>

A quiz website which has html, css, and js quiz sections where quizzes are taken and the results are published on the results page.

Bootstrap site - <https://github.com/EbotProg/Bootstrap-project/tree/main/bootstrap%20project/MyBootstrapProject>

I reproduced a bootstrap website using html, css, bootstrap and javascript.

Frontend Mentor projects - <https://github.com/EbotProg/Frontend-Mentor>

I worked on a number of frontend mentor challenges in which I created UIs using just html and css. Some of their links are below

- <https://github.com/EbotProg/Frontend-Mentor/tree/main/huddle-landing-page-with-single-introductory-section-master>
- <https://github.com/EbotProg/Frontend-Mentor/tree/main/Order%20summary>
- <https://github.com/EbotProg/Frontend-Mentor/tree/main/social-proof-section-master>

FileSharingApplication(FSAP) - <https://github.com/EbotProg/FSAP>

I am currently working on a file sharing web application called FSAP which can be used to send file links from one person to another securely(that is files may have passwords) via email.
